All children need the basics such as food, warmth, shelter and clothing, but they also need to feel loved and secure. Since 2006 the House of Mercy Children's Home has been giving hope, strength and joy to the less fortunate children of Nigeria.

Many of our children are girls who have been burdened with the twin blights of early marriage and domestic violence / domestic labour. The rescue of street children is a tough task. The longer the children have been on the street the harder the task is because they find a return to the streets a more attractive prospect than the disciplined lifestyle which is foreign to them when they first come to the home.
