We are a Pan African, non governmental organisation working in 33 countries to empower women and girls through gender responsive education. We work hand in hand with communities, schools, civil society, non governmental orgs and ministries to achieve gender equity and equality. We run a weekly radio programme on girls education and have recently launched five branches of the Sierra Leone chapter. We run programmes to rehabilitate girls who have been raped or traumatized by war. Workshops to train more people to work as support staff and counseling and guidance programmes for those who may need more help.

Since the war in Sierra Leone many families have been killed or have been separated. This has led to children being left to fend for themselves, having no place to live and no food to eat. The Ben Hirsh Centre was established and since opening more than 300 children have passed through the home. Some families have been traced and reunited with their children while other children have been fostered by members of the community.
