Our aim is to promote human and community development for the relief of social, economic, cultural and religious injustices. Focus has been on women and children in deprived zones in Ghana. We work with women and girls whose rights and dignity have been infringed upon as a result of a cultural practice that confines victims to “fetish Shrines” for years or even for |
life. There approx 4,500 women enslaved in this manor. Our projects have managed to abolish the practice and a Bill has been passed as a result of advocacy. Shrine owners have also been negotiated with. 460 women and girls have actually been released. Counselling and rehabilitation services have been provided.
