UNHCR - Yemen
PO Box 12093
Sana’a
Yemen
Tel 967-146-9771

More than 26,000 children are registered as refugees in Yemen. Many children particularly unaccompanied and separated children remain at risk of exploitation and abuse.
UNHCR continues to prioritize child protection activities with a focus on the most vulnerable refugee and asylum-seeking children.
Child care, psychosocial support, recreational activities and limited economic support to care givers and families through cash assistance will be provided through the UNHCR’s family centre in SANA’A, as well as community centres in ADEN and in KHALARZ CAMP.

Gender Based Violence continues to be a risk for women and girls, especially refugees with support from community networks or family.
Commonly reported incidents including sexual violence, domestic violence, emotional abuse and psychological abuse.
Through dedicated partners UNHCR will continue to mitigate and address GBV through
referral of cases to specialized services for survivors to be conducted in a safe and confidential environment. (i.e. dedicated community centres and safe spaces) and through consent of survivors. Survivors will be provided with multisectoral support including medical assistance, psychosocial support, cash assistance, non-food items, referral to life skills training and legal counselling.
