The Women's Action Group is a non governmental organization whose work centres on empowering women and girls to enjoy their rights in a violence free, rights conscious community. Our Restoring Hope to Rape Survivors as well other other women affected by violence aims to educate women on the needs to report such crimes. We also have been part of a project aimed at the best possible care for such victims. The project named by many as a "ONE STOP CENTRE" is set up to make sure the survivor has all the services she would need under one roof. Unfortunately Makoni is the only such centre in Zimbabwe to date, but we are working daily to change this.
